Frontend: Javascript, ReactJs, NextJs, TailwindCSS, Flutter

Backend: NodeJs, ExpressJs, Firebase

Databases: SQL, MongoDB, PostgreSQL

DevOps: Shell Scripting, Aws, Docker, Kubernetes, Jenkins, Ansible, Terraform

Experience

Brindley Technologies

Internship Trainee

July 2022 – July 2022

Mumbai, Andheri

- Successfully completed a 15-day internship focused on developing and implementing CRM (Customer Relationship Management), CMR (Customer Management System), and CSS (Customer Support System) solutions for Brindley Technologies.
- Contributed to the development and implementation of automated processes within the CRM system, streamlining data entry, analysis, and reporting procedures.
- Generated detailed project documentation, including system specifications, user manuals, and training materials, to support ongoing maintenance and future enhancements.

iNav Labs

Co-Founder

December 2023 – Present

Gandhinagar

- Successfully developed and launched iNav Labs' main website, significantly enhancing the company's online presence and brand visibility.
- Mentored and supervised interns, fostering their professional growth and development while contributing to the talent pipeline of the organization.

Projects

iNav Labs - Website | *ReactJs, TailwindCSS* [Link](#)

January 2024

- Led the development of the main website for iNav Labs, a cutting-edge technology company, using ReactJS and TailwindCSS, resulting in a modern and responsive web presence.
- Proficiency in frontend web development using ReactJS and TailwindCSS.
- Effective communication and collaboration within cross-functional teams.

PropertyPro | *ReactJS, TailwindCSS, MongoDB, NodeJs, ExpressJs* [Git](#)

February 2023

- Independently conceptualized, designed, and developed PropertyPro, a comprehensive real estate website, leveraging the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Ensured a responsive user interface across desktop and mobile devices by employing React.js for front-end development, optimizing user experience across platforms.
- Acquired valuable hands-on experience and expertise in modern web development technologies and methodologies, further enhancing technical skills and proficiency in full-stack development.

GitHub API | *Shell Scripting, GitHub* [Git](#)

January 2024

- Leveraged shell scripting to interact with the GitHub API endpoints and parse JSON responses, ensuring efficient communication and data processing.
- Implemented error handling and validation mechanisms to provide a robust and reliable user experience, enhancing the tool's usability and effectiveness.

AWS-Resource-Usage | *Shell Scripting, Aws* [Git](#)

January 2024

- Leveraged shell scripting (Bash) to interact with AWS CLI (Command Line Interface) and AWS SDKs (Software Development Kits) for resource management and monitoring.
- Incorporated best practices for secure credential management and access control to AWS resources.

Volunteering

Seva Yagna Samiti

June 2022 – July 2022

Social Worker

Bharuch

- Civic Internships enable students to work in socially responsible workplaces, and apply their skills and knowledge to promote social good. While this develops them to become work-ready professionals, it also nurtures them to become advocates who help build a better world.
- Intentionally, putting us to workplace where teamwork, communication, community services, functionality of organisation is learned in everyday to day life as real world simulator and experience is gain to create working professionals for future with understanding of greater world beyond class room.
- Teamwork, a leader leads to all to achievement with patience, Communicating, Creativity, learning and teaming with everyone while a member communicates, listen and put hard work. Makes a great team to work on such we stood on to our work efficiently.
- Communication is an aspect necessary in every expect of the event we stood up and we took it bit serious as part of big part meanwhile Community service is another aspect we practiced alongside as everything was about it and we take upon internship for same reason.
- Functionality of an Organisation is a thing that we learned as the future professionals can't learn such thing in classroom but can fairly experience by getting.

Sorrison - Photography Club of PDEU

September 2022 – July 2023

Photographer

Gandhinagar

- Captured high-quality photographs during various club events, including fundraisers, community service projects, cultural festivals, and workshops.
- Collaborated with club members and event organizers to understand photography requirements and desired outcomes for each event.
- Communication and collaboration skills in coordinating with event organizers and club members to fulfill photography requirements.
- Received appreciation from club members and event attendees for delivering captivating and visually appealing photographs that effectively captured the essence of club activities.

Certifications

Udemy : Full Stack Web Developer

Hackathons : TicTechToe'23, HackOut'23
